

PowerPoint Alchemy

PowerPoint Pop Ups

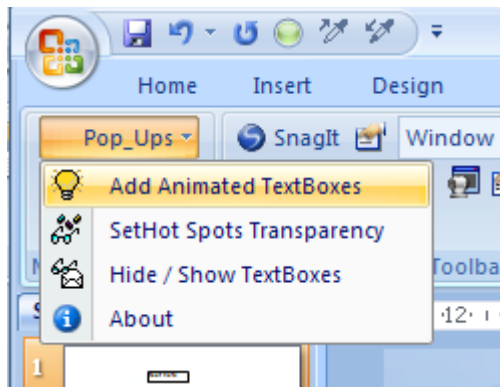

This is an Add In for PowerPoint XP – 2007. With it you can easily and quickly create “Hot Spots” that trigger Text Pop Ups in you presentation. The text can be hidden for printing if you wish. The Demo version will only create 4 pop ups.

Install

Macro security must be set to medium or Low in earlier versions or in version 2007 “Disable with prompt”.

****IMPORTANT** Close PowerPoint before continuing**

With PowerPoint CLOSED run the exe file to install the Add In. If you have 2007 you will need to click the ADD IN tab to see the new menu. Please do not change the install location. If the toolbar does not appear then In 2002/3 Tools > Add Ins > Add New and add Pop_Ups.ppa. In 2007 get to the same dialogue in Office button > PowerPoint Options > Add Ins > Manage PowerPoint Options.

(Shown in 2007)

Insert Hot Spots

Simply insert shapes of your choice in the positions you need the hot spot. Select all of the hot spots and click on the Add Animated TextBoxes menu. Note the demo will only create 4 pop ups.

Text boxes are created and animated automatically. You may change text size and font, background fill and resize or move the boxes if you wish. You could even fill the text box with a picture fill.

Add the required text.

Hot Spot Transparency

Simply select this option from the menu and choose a setting. ALL hotspots are set to the chosen transparency.

Printing

If you wish to hide the text boxes when you print choose “Hide / Show TextBoxes” from the menu. Use the same option to get them back!

Demo

If you have the demo version it will operate fully for 14 days. After this you will need to buy the full version to continue using the Add in. The demo is limited to 4 Pop Up per page. The full version has no restrictions.
